OPALUM SPEAKERS ARE UNIQUE...

Not only because of its surprisingly slim design, but because of the "real surprise" revealed the moment the powerful sound fills the air.
A sound so full that conventional thinkers will say, "IMPOSSIBLE," but the Opalum sound system is real, and a new contender on the speaker market.
Beautiful, crisp, clear sounds will fill your home minus the conventional big, bulky hardware. Let your ears and eyes be the judge.
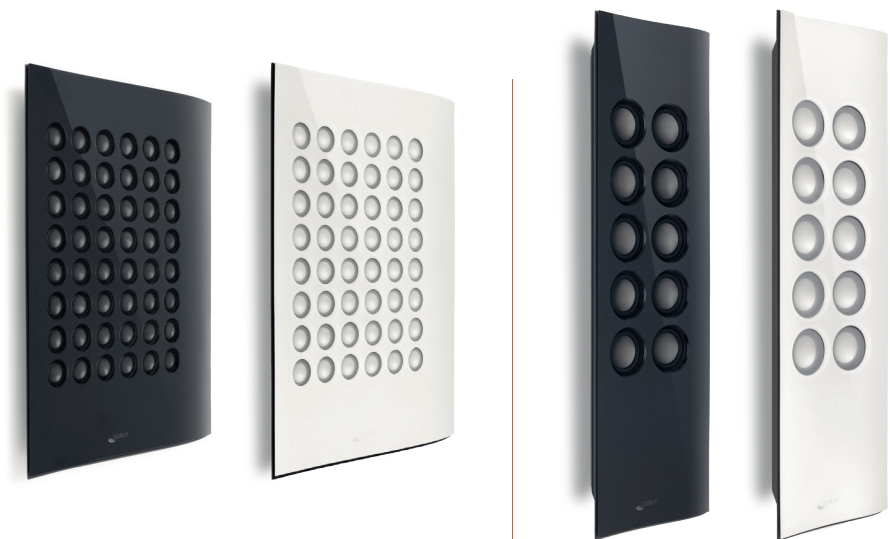

THE SECRET:

A new, patented technology giving Opalum the freedom to think slim design without compromising on sound.
The Opalum sound system is ready for your TV, music system and digital sources. Feel free to look into the technology on opalum.com.

BORN TO BE AN ICON

Flow has a unique slim design, inspired by a piece of paper floating on the wall. The wave shape not only makes it elegant – it minimizes vibration and directs the sound directly towards the listener.

Flow is the perfect choice to complement your flat screen TV – both being equally flat against the wall, while producing a full and clear sound to showcase the quality HD picture.

DESIGN IN PERFECT BALANCE

At first sight, STREAM may seem like a conventional speaker, but then check out its depth.
Its surprising lack of depth makes it easy to place powerful sound discretely on a wall or shelf.

STREAM is a great choice for traditional Hi-Fi systems and flat screen TVs.
